Q1 Novels create such a curiosity that you do not want to leave them before it is done. In the novel 'The Invisible Man', before becoming invisible himself, the scientist tests his invention on a cat. The cat becomes completely invisible except for his claws and the coloured part of his eyes. The cat is then set free by the scientist. Now imagine this invisible cat roaming about at large. Write down the events of one day in the life of this invisible cat. (Refer chapter 'The Strange Man's Arrival').

Q2 Suppose the watchmen do meet a thief after Dogberry and Verges leave. Attempt to write a dialogue conversation between the watchman and a thief on the advice that Dogberry has given the watchmen regarding thieves. (Refer the story "Says Dogberry To The Watch"). Some points you may include are:

- a) The watchmen catch the thief, and then hint for him to slip away.
- b) The thief is thoroughly puzzled as to why the watchmen would want him to escape.
- c) The thief suspects that the guards are up to something, and refuses to move.
